

Information Systems Management Biographies

Paul Alpar

Paul Alpar is Professor of Business Administration and Management Information Systems at Philipps-Universität Marburg, School of Business and Economics. He has been before on the faculty at the University of Illinois in Chicago and a Visiting Scholar at the universities of Frankfurt a.M., Germany; New Mexico, Albuquerque; Tel-Aviv (Israel); California, Berkeley (USA); and Georgia State (USA). He has published in *Journal of MIS*, *Decision Support Systems*, *Journal of Organizational Computing*, *Int. Journal of Electronic Commerce*, *IEEE Transactions on Engineering Management*, *Information and Management*, *Int. Journal of Research in Marketing*, *Journal of Productivity Analysis*, *Entrepreneurship - Theory and Practice*, and many other journals. He is also the (co-)author of five books on IS issues (in German).

Dinesh Batra

Dinesh Batra is a Knight-Ridder Research Professor of MIS in the College of Business Administration at the Florida International University. He is a co-author of the book *ObjectOriented Systems Analysis and Design* published by Pearson Prentice-Hall. His publications have appeared in *Communications of the ACM*, *Management Science*, *Journal of MIS*, *Data Base*, *European Journal of Information Systems*, *International Journal of Human Computer Studies*, *Computers and Operations Research*, *Information and Management*, *Journal of Database Management*, *CAIS*, *Decision Support Systems*, *Requirements Engineering Journal*, and others. He has served as the President of the AIS SIG on Systems Analysis and Design

Egon Berghout

Egon Berghout is Academic Director of the IT Auditing & Advisory Program at Erasmus University and Chair of Information Systems at the University of Groningen. He is specialized in the creation of sustainable strategic advantage through IT and publishes in journals, such as, *Information Systems Management*, *Information & Management*, *Computers in Industry*, *Information & Software Technology* and *IEEE Software*. He also directs the Information Management Institute, which advises multinationals and governmental institutions on (IT) strategy, IT added value improvement, efficiency improvement, governance and sourcing. He jointly founded the Benelux Chapter of the AIS and the European Best Research Paper of the Year election with 6,000 European CIOs. His research interest particularly concerns the areas IT Governance and IT Economics.

Markus Bick

Markus Bick is Assistant Professor of Business Information Systems at ESCP Europe Campus Berlin (until May 2009 aka ESCP-EAP European School of Management). He earned his Doctorate in Business Information Systems from the University of Duisburg-Essen;in Germany. Markus Bick is co-author of a German textbook on data and information management. He published his research work in national (German) and international Journals (e.g., *Journal of Educational Technology & Society*) as well as peer-reviewed conferences (e.g., IFIP-13E, ECIS, or AMCIS). He is member of AIS, IFIP, Gesellschaft für Informatik e.V. (GI) and the German Academic Association on Business Reseach (VHB). His current research interests include ambient and mobile technologies,

convergence of e-learning and knowledge management as well as IT Governance. Markus Bick mainly teaches business and management information systems in the Master, Ph.D., and MBA programs of ESCP Europe. Besides, he also teaches knowledge management in the Master program (M.Sc.) Virtual Education in Business Information Systems (VAWi) at the Universities of Bamberg and Duisburg-Essen.

Sue A. Conger

Sue A. Conger, PhD, is an Associate Professor at the University of Dallas where she is also Director of both Information Technology and IT Service Management programs. She has a B.S. in psychology from Ohio State University, an M.B.A. in finance and cost accounting from Rutgers University, and a Ph.D. in computer information systems from the Stern School of Management at New York University. She is the author of three books, *The New Software Engineering*, 1994; and *Planning and Designing Effective Web Sites* (with Richard O. Mason), 1997, and *Process Mapping and Management*, 2007. Dr. Conger's research interests are ethics and IT, privacy, and IT-related innovation. With the first ITSM program in the U.S., she is actively involved with the IT Service Management Forum (itSMF), an industry association. She has an extensive consulting practice, which draws on her work experiences of 30+ years in the information systems field, including saving failing projects, organizational assessment and organization development for IT-related functions.

Regina Connolly

Dr. Regina Connolly is a lecturer in Management Information Systems at Dublin City University, Ireland, and is director of the MSc in Electronic Commerce degree programme. In her undergraduate degree she received the Kellogg award for outstanding dissertation and in 1997 was awarded an MSc degree with distinction. She received her PhD in Information Systems from Trinity College, Dublin. She is Visiting Professor at the University of Angers, France, the Università Cattolica del Sacre Cuore, Italy, the Mediterranean University of Science and Technology, Valencia, Spain, and the University of Mostar, Bosnia Herzegovina. She is a member of ICS and ISSA. Her research interests include socio-technical dimensions of electronic commerce, ubiquitous computing & ambient intelligence, eCommerce security & risk management, IT governance and medical information systems. She has served on the expert eCommerce advisory group for Dublin Chamber of Commerce, which has advised the Irish government on eCommerce strategic planning.

Gerald DeHondt

Gerald DeHondt teaches Management Information Systems courses at Oakland University in Rochester, MI. Prior to his current role, he worked for Compuware Corporation providing consulting services to Fortune 500 companies. While at Compuware, he held increasingly responsible positions as a Programmer/Analyst, Quality Assurance Manager, Network Architect, Enterprise Architect, and most recently as a Project Manager guiding delivery of high-value projects. Dr. DeHondt has taught courses at the graduate and undergraduate level in Information Systems Policy and Strategy, Project Management, Information Security, Management Information Systems, Systems Analysis and Design, Network Architecture, and Web Development. His research interests include Offshore Outsourcing of Systems Development, Agile Software Development Methodologies, and the Business Value of IT. He has a number of journal publications and his research has appeared at various national conferences, including the Decision

Sciences Institute (DSI), the Americas Conference on Information Systems (AMCIS), the Conference on Information Systems Applied Research (CONISAR), the Information Systems Educators Conference (ISECON), and the Hawaii International Conference on System Sciences (HICSS). His research has been recognized as a Best Paper and Distinguished Paper at two national information systems conferences.

Renata Gabryelczyk

Renata Gabryelczyk PhD (doctor habilitatus) is an Associate Professor and Head of the Department of Management and Information Technology at the Faculty of Economic Sciences, University of Warsaw, Poland. She is also a visiting professor at the Warsaw School of Information Technology (WIT) under the auspices of the Polish Academy of Sciences. Her academic experience includes involvement in research projects at the Polish National Science Center, projects financed by government institutions in Poland and the EU, and, research fellowships at universities in Saarbrücken, Heidelberg, Constance, and Ulm, Germany, and Vienna, Austria. Her research interests include business process management, performance management, facility management, and IT applications in increasing efficiency. She is a member of the program board of the Polish Certificate of BPMN at the Polish Academy of Sciences, a member of Polish Scientific Society of Economic Informatics, a member of the Technical Committee for Facility Management of the Polish Committee for Standardization, and a member of Polish Chapter of AIS (PLAIS). She serves as Managing Editor in the Central European Economic Journal, and as PC member and reviewer at BPM and AIS conferences.

Anthony B. Gerth

Anthony B. Gerth is currently practice leader for enterprise resource management at Infosys Consulting. He has more than 22 years of experience in manufacturing, systems implementation, and management consulting, including packaged software implementations and B2B initiatives. He holds a B.S. from Indiana University and an MBA from Ashland University, and has taught courses on leadership, business integration, and operations management topics.

Khaled Hassanein

Dr. Khaled Hassanein is Associate Professor and Chair of the Information Systems Area at the DeGroote School of Business, McMaster University, Canada. He is also the Director of the McMaster eBusiness Research Centre (MeRC). His research interests are mainly in the areas of eBusiness and mobile business including online trust, online usability & HCI, wireless device usability, online privacy, human centric decision support systems, and e-Health. Dr. Hassanein has a successful track record of gaining research funding from federal, provincial and private sector organizations. This funding was used to mount a successful research program in the above areas involving collaboration with colleagues and graduate students. His research activities have resulted in over 60 articles in academic journals, refereed conference proceedings and book chapters. He currently serves on the executive committees of several international conferences in the areas of information systems, eBusiness and mobile business and was the chair for the information systems division of the Administrative Sciences Association of Canada (ASAC) during 2006/2007. Dr. Hassanein is also an adjunct professor at the School of Engineering Practice, McMaster University and the Systems Design Engineering Department of the University of Waterloo. Prior to joining McMaster, Dr. Hassanein was a Senior Research Associate with NCR's Payments Solutions Division in Waterloo, Ontario. There he led several advanced development

projects related to the automated processing of financial documents, and the data warehousing and mining of financial transaction data. He is a joint holder of several U.S. patents, a senior member of the IEEE and a designated Professional Engineer in Ontario. For more information, please feel free to browse Dr. Hassanein's Website at <http://www.khaledhassanein.ca/>.

Tejaswini (Teju) Herath

Dr. Tejaswini (Teju) Herath is an Associate Professor of Information Systems in the Goodman School of Business at Brock University, Canada. She received her Ph.D. from the Department of Management Science and Systems at State University of New York, Buffalo (UB) focusing on information security. Dr. Herath holds a NSA certified Certificate in Information Assurance from SUNY Buffalo. She completed her MMIS, MSCE degrees from Auburn University, USA and a BE from Pune University, India. Previously, she worked as a systems analyst and a part time lecturer at University of Northern British Columbia, Canada. Her research interests are in Information Assurance and include topics such as information security and privacy, diffusion of information assurance practices, economics of information security and risk management. Her research has been funded by SSHRC Canada and other grants. Her work has appeared in leading journals such as the *Journal of Management Information Systems*, *Decision Support Systems*, *European Journal of Information Systems*, *Information Systems Management*, *International Journal of Business Governance and Ethics* among others.

Anat Zeelim-Hovav

Dr. Anat Zeelim-Hovav teaches at Korea University Business School in Seoul, South Korea. Dr. Hovav holds a B.S. In Mathematics from Tel-Aviv University, a Master's in Computer Engineering from Loyola Marymount University in Los Angeles, and a Ph.D. in Management and Information Systems from Claremont University. In addition, she has over 15 years of industry experience in information systems management and strategic planning. Her research interests include the socio-technical aspects of organizational information security, risk assessment, Internet standards, and electronic scholarship.

Anat Hovav has published in internationally refereed journals such as: *Information Systems Research (ISR)*, *Communications of the ACM*, *Computers & Security*, *Information Systems Journal (ISJ)*, *Information Systems Management (ISM)*, *Advances in Computers*, *Communications of AIS (CAIS)*, *Information Systems Security Journal*, and *Risk Management and Insurance Review*. Dr. Hovav is the program chair of the Annual Information Security Conference held in Las Vegas and has presented her work internationally in academic and industry conferences and workshops. Website: biz.korea.ac.kr/~anat

Ray Hoving

Ray is in his tenth year as an independent IT management consultant. He specializes in aligning IT with business strategy, applications and infrastructure management best practices, and IT project excellence. He also provides educational services to clients in areas such as project management, IT leadership, and executive education. He has over 30 years of experience in IT management, mostly with Air Products and Chemicals Inc, a global Fortune 250 manufacturer. His assignments included heading applications development, emerging technologies, and IT infrastructure services for the corporation. He also served as CIO for a multi-billion-dollar division of the company. Ray has been an Adjunct Professor for the MBA programs of Temple and Lehigh Universities, and has taught in the Wharton, MIT, Babson, UCLA, and University of Virginia Executive Education

programs. He is the Senior Advisory Editor for MISQExecutive, a research journal devoted to improving IT practices. He served as Chairman of the Executive Board and President of the Society for Information Management. SIM is the leading professional association for CIO's and other key IT leaders with 3000 members worldwide.

Muhammad Kamal

Dr. Kamal is an Associate Professor in Supply Chain Management at the School of Strategy and Leadership (SSL), Coventry Business School, Coventry University. Prior to joining SSL at Coventry, he was a Senior Lecturer in Operations and Supply Chain Management at the Brunel Business School, Brunel University London. He earned his Doctorate in Information Systems from the School of Information Systems, Computing and Mathematics, Brunel University London. His current research interests include Operations and SCM, Information Systems and Technology Management, Technology and SCM, Big Data and Business Analytics, Supply Chain Integration, Enterprise Application Integration Technologies. Currently, he is the Deputy Editor for the *Journal of Enterprise Information Management* (JEIM) and on editorial board for *Government Information Quarterly*. He has published in several leading journals, such as *International Journal of Production Research*, *Journal of Business Research*, *Information and Management*, *Production, Planning and Control*, *Expert Systems with Applications*, *Government Information Quarterly*, *International Journal of Information Management*, *Information Systems Management*, *Supply Chain Management: An International Journal*, *Journal of the Operational Research Society*, and *Journal of Global Information Management*, and several leading international conferences such as European Conference on Information Systems, Americas Conference on Information Systems, Hawaii International Conference on System Sciences, European, Mediterranean and Middle Eastern Conference on Information Systems, and Pacific Asia Conference on Information Systems.

Ranjan B. Kini

Ranjan B. Kini is a Professor of Management Information Systems at Indiana University Northwest. He is an active member of DSI, ACM, AIS, IACIS, IFIP, and APICS. Kini has published papers in many journals including *Journal of Manufacturing Systems*, *Journal of Computers and Industrial Engineering*, *International Journal of Mobile Communications*, *Journal of Computer Information Systems*, *Information Systems Management Journal*, *Journal of Business Ethics*, *Behavior and Information Technology International*, *Journal of Operations and Production Management*, *International Journal of Management*, *Journal of Transnational Management Development*, and *International Journal of Computer Applications in Technology*. His current research interests include Electronic and Mobile Commerce, Ethics in Information Technology, IS Outsourcing, Strategic Information Systems, the application of IT in manufacturing, Technology Management, Healthcare. He is a regular Visiting Professor in the joint Ph.D. program of Bangkok University, Bangkok, Thailand. He has won Teaching Excellence Awards, and is inducted as Who's Who Among America's Teachers, multiple times. He teaches courses in MIS, Intelligent and Knowledge Systems, Decision Support Systems, Business Telecommunications, and Electronic Business. He has received Rotary International's University Scholar Grants to Thailand and Chile, several Software Grants, Indiana University's competitive grants. He currently serves on the board of several not-for-profit organizations. He is listed in several International Who's Who directories. He received his Ph.D. from Texas Tech University.

Stephan Kudyba

Stephan Kudyba is an associate professor of analytics and MIS in the school of management at New Jersey Institute of Technology. Dr. Kudyba teaches business courses addressing data, information and knowledge management, market research and digital marketing. He has published numerous books and articles, has been interviewed by prominent magazines and speaks at corporate and academic events addressing data mining, Business Intelligence and strategic initiatives regarding information and systems management. His journal publications include analytics and MIS related subject matter in ISR, MIT Sloan Management Review, Harvard Business Review, CACM and others. He is a member of a number of information management based societies including the Society of Information Management and the International Institute of Analytics and maintains relations with organizations in a variety of industries addressing strategic initiatives. He received his PhD from Rensselaer Polytechnic Institute and has over 15 years of experience in prominent organizations.

Christian Meske

Christian Meske is Full Professor of Socio-technical System Design and Artificial Intelligence at Institute of Work Science and Mechanical Engineering, Ruhr-Universität Bochum (Germany). He received his PhD from University of Muenster and was a postdoctoral coordinator of a DFG graduate school at University of Duisburg-Essen. Following, he was Assistant Professor at the Department of Information Systems, Freie Universität Berlin, and funded member of the Einstein Center Digital Future (Berlin). Moreover, he was a visiting scholar at Florida State University, University of Agder, University of Liechtenstein, University of Sydney Business School and University of Technology Sydney. His research has been published in journals such as Business & Information Systems Engineering, Business Process Management Journal, Communications of the Association for Information Systems, Information Systems Frontiers, Information Systems Management, Journal of Enterprise Information Management, Journal of the Association for Information Science and Technology as well as, MISQ Executive. Amongst others, he has been recognized with the AIS Best Information Systems Publication of the Year Award.

Luvai Motiwalla

Dr. Luvai Motiwalla is Professor of Management Information System at the University of Massachusetts Lowell and was the previous Chair of the Operations and Information Systems (OIS) Department from 2008-17. Dr. Motiwalla earned his Ph.D. in MIS, in 1989, from the University of Arizona. His current research focuses on system usage, mobile systems adoption, organizational system assimilation of enterprise systems, behavioral analytics, information privacy and behavioral analytics. He has published two books, several articles in several MIS journals, and presented at numerous national and international conferences. He has also received grants from NIH, NSF, U.S. DoE and funding from private foundations.

Peter P. Mykytyn

Peter P. Mykytyn is a Professor of Management Information Systems in the Department of

Management at Southern Illinois University, Carbondale. He received his Ph.D. degree from Arizona State University in Computer Information Systems. Prior to coming to SIU in fall 2001, Dr. Mykytyn was on the faculty of the College of Business Administration at the University of Texas at Arlington from 1985 through 2001. He has also been a Visiting Professor at Agder University in Kristiansand, Norway and RWTH Aachen University in Aachen, Germany. Dr. Mykytyn has published over 40 journal articles, including publishing in *Information Systems Research*, *MIS Quarterly*, *Journal of Management Information Systems*, *Information & Management*, *Information Systems Management*, and *Journal of Strategic Information Systems*. He has received research awards from the Decision Science Institute, University of Texas at Arlington, and Southern Illinois University, Carbondale. Dr. Mykytyn's research interests include the relationship between information technology and a firm's competitive advantage and use of group-support technologies in organizations. For more than 15 years, he has been a leading scholar investigating the relationship between intellectual property, information technology, and organizational effectiveness and performance.

Arik Ragowsky

Arik Ragowsky is an Associate Professor of Information Systems and the Director of the Manufacturing Information Systems Center at Wayne State University. His experience includes working as a CIO at a manufacturing company and as a consultant for manufacturing organizations with their information systems (e.g., ERP and other systems). He has more than 30 years of practical experience with information systems. In addition to this journal, he has published in *The Journal of Management Information Systems*, *Information Technology & Management*, *The Communication of the ACM*, *The International Journal of Industrial Engineering*, *The International Journal of CIM*, and *Information & Management*. His current research interests are in the value of information systems, manufacturing information systems, ERP, and strategic information systems.

Narczyz Roztocki

Narczyz Roztocki is Professor of Management Information Systems at the State University of New York at New Paltz, USA and Professor at the Kozminski University, Warsaw, Poland. His research interests include IS/IT investment evaluation, IS/IT productivity, IS/IT investments in transition/emerging economies, technology project management, and e-commerce. He has been published in numerous journals including the *European Journal of Information Systems*, *the Journal of Strategic Information System*, *the Journal of Computer Information Systems*, *the Electronic Journal of Information Systems in Developing Countries*, *the Electronic Journal of Information Systems Evaluation*, *the International Journal of Service Technology and Management*, *the Journal of Global Information Technology Management*, *the Journal of Information Science & Technology*, and in proceedings of AMCIS, DSI, ECIS, ECITE, and HICSS, among many others.

Cathy A. Rusinko, Ph.D.

Cathy A. Rusinko earned a Ph.D. in Management and Organization from Penn State University. She teaches at both undergraduate and graduate levels, and has taught management and economics at Penn State. Currently, she is an Associate Professor of Management in the Philadelphia University School of Business Administration. Her research interests include management of technology and innovation, including sustainable practices in organizations. Her early research

focused on crossfunctional integration and competitiveness in manufacturing companies. She has also done research on innovations in the financial services industry.

Currently, she is examining sustainable innovations and technologies in organizations, including the role of sustainability in information systems. She was awarded a research grant by the National Textile Center to study the relationship between environmentally sustainable practices and competitiveness in the carpet industry, and received the Director's Research Award. Her research is published in scholarly journals including *IEEE Transactions on Engineering Management*, *Journal of Engineering and Technology Management*, *Project Management Journal*, *Journal of Financial Engineering*, *SAM Advanced Management Journal*, and *International Journal of Sustainability in Higher Education*.

She developed a minor in sustainable business at Philadelphia University. In addition, she is coeditor of a special issue of *Journal of Management Education* on, "Greening and Sustainability Across the Management Curriculum." She is a member of the advisory board of *International Journal of Sustainability in Higher Education* and is a member of Academy of Management and The Greening of Industry Network. Prior to her academic career, she worked at General Electric, U.S. Department of Defense, and U.S. Department of Agriculture. She has been interviewed and quoted in national publications, including: The New York Times; The Washington Post; The Chicago Tribune; and U.S. News & World Report

Lazar Rusu

Lazar Rusu, Ph.D., is Professor at Department of Computer and Systems Sciences, Stockholm University, Sweden. He is involved in teaching and research in IT management and IT governance and has a professional experience of over 30 years both industrial and academic in information systems area. His research interest is mainly in business-IT alignment, IT governance, IT outsourcing, and digital transformation. The results of his research have been published in proceedings of top international conferences like ECIS, HICSS, AMCIS, PACIS, ISD and journals like *Computers in Human Behavior*, *Industrial Management & Data Systems*, *Information Systems Management*, *Journal of Global Information Technology Management*, *Journal of Information Technology Theory and Applications*, among others.

Dr. Sujeet K. Sharma

Dr. Sujeet K. Sharma is an Associate Professor at Indian Institute of Management Nagpur, India. He has been teaching for more than 20 years in Oman, Bahrain, and India, which has given him a wide experience in teaching and interacting with the students across multiplicity of cultural and ethnic backgrounds. His research articles have appeared in refereed international journals including *International Journal of Information Management*, *Government Information Quarterly*, *Technological Forecasting & Social Change*, *Information Systems Management*, *Computers in Human Behavior*, *Information Systems Frontiers*, *Behavior and Information Technology* among others. He serves as Associate Editor for the *International Journal of Electronic Government Research* and coordinating editor for *Information Systems Frontiers*. Google Scholar Link: <https://scholar.google.co.in/citations?user=ta73q6cAAAAJ&hl=en>.

Janice C. Sipior

Janice C. Sipior is a Professor in the Accounting and Information Systems Department at Villanova University in Pennsylvania USA. She was a Visiting Professor at Moscow State Linguistic University in Russia and University of Warsaw in Poland. She is Chair of the Association for Computing

Machinery - Special Interest Group on Management Information Systems (ACM-SIGMIS), represents ACM on the ACM/Association for Information Systems (ACM/AIS) Task Force for IS: Model Curriculum and Guidelines for Undergraduate Degree Programs in Information Systems, and serves as Editor-in-Chief of *Information Systems Management*, Senior Editor of *Data Base*, Associate Editor of *Information Resources Management Journal*, and serves on the Editorial Board of the *International Journal of Advanced Decision Sciences*. Her research interests include ethical and legal aspects of information technology, system development strategies, and knowledge management.

Pedro Soto Acosta

Pedro Soto-Acosta is a Professor of Management at the University of Murcia (Spain). He attended Postgraduate Courses in Management at Harvard University (USA) and received his PhD in MIS from University of Murcia. He serves as Associate Editor and Senior Editor for several journals including *Decision Sciences*, *Electronic Commerce Research and Applications*, *Information Systems Management and Computational economics*. He has been visiting professor in several universities in Europe, Asia and America and his work has been published in journals such as *Computers in Human Behavior*, *Electronic Markets*, *European Journal of Information Systems*, *European Management Journal*, *International Journal of Information Management*, *Information Systems Management*, *Journal of Business Research*, *Journal of Technology Transfer*, *Management Decision*, *Online Information Review*, *Service Business*, and *Technological and Economic Development of Economy*, among others. Further information is available at <http://webs.um.es/psoto>.

Heikki Topi

Heikki Topi is Associate Professor and Chair of the Computer Information Systems Department at Bentley College in Waltham, MA. His teaching interests cover a range of topics including advanced systems analysis and design, systems modeling, and data management. His current research focuses on human factors and usability issues in enterprise systems, information search and data management and the effects of time availability on human-computer interaction. His research has been published in journals such as *European Journal of Information Systems*, *JASIST*, *Information Processing & Management*, *International Journal of Human-Computer Studies*, *Journal of Database Management*, *Small Group Research*, and others. He has been actively involved in national computing curriculum development and evaluation efforts (including IS2002, CC2005 Overview Report, and as the chair of the current IS curriculum revision project). He is a member of the ACM Education Board.

Stanislaw Wrycza

Stanislaw Wrycza is a Professor and Head of Department of Information Systems at University of Gdansk, Poland. His main areas of research and teaching activities are: information system development, UML, databases, e-business, e-learning. He has written or edited 25 books, published over 150 articles in English and Polish in professional journals and papers at international conferences. He was the first President of Polish Society for Information Systems Research (1995- 2000) and chairman of Program and Organizational Committees of the Xth European Conference on Information Systems (ECIS2002), held in Gdansk in June 2002. He is a founding member of the Association for Information Systems (AIS) and Information Systems Academic Heads International (ISAHI) as well as the President of Polish Chapter of AIS (PLAIS)

since 2006. He is the current Vice President of ISAHl. Prof. Stanislaw Wrycza was co-initiator of the international conference on Information Systems Development (ISD). In its 14th edition, several hundred papers from over 50 countries were published, recently by Springer Science. Prof. Wrycza has participated in numerous program committees of international conferences and has been the member of editorial board of several international IS journals like *Information Systems Journal* or *Information Systems and eBusiness*. He also has taken part in European educational and research and educational programs of the European Union. For more information see: <http://www.wrycza.wzr.pl/indexen.html>

Dongsong Zhang

Dr. Dongsong Zhang is an Associate Professor in the Department of Information Systems at the University of Maryland, Baltimore County. He received his Ph.D. in Management Information Systems from the University of Arizona. His current research interests include context-aware mobile computing, computer-mediated collaboration and communication, knowledge management, and Web-based learning. His work has been published in journals such as *Communications of the ACM (CACM)*, *Journal of Management Information Systems (JMIS)*, *IEEE Transactions on Knowledge and Data Engineering (TKDE)*, *IEEE Transactions on Multimedia*, *IEEE Transactions on Systems, Man, and Cybernetics*, *IEEE Transactions on Professional Communication*, *Decision Support Systems*, *Information & Management*, *Information Systems Management journal*, *Communications of the AIS*, *Journal of the American Society for Information Science and Technology*, among others. He has received research awards and grants from Google, Inc. and NIH.

Phil Zwieg

Phil is currently a principal with Z-Sharp, LLC. He recently retired as a Vice President in the Information Systems department at Northwestern Mutual, where he was responsible for all infrastructure and IT operations activities. Previous responsibilities at NM included heading up applications development and support activities for all home office business functions. Prior to joining the Northwestern, he was head of the Information Systems organization at WE Energies. He received his bachelor's degree in business administration from the University of Wisconsin-Milwaukee and his MBA from Marquette University. He has completed work towards his PhD at the University of Wisconsin-Milwaukee. He is on the adjunct faculty of the graduate business school at Marquette University. Phil is a member of the Board of Directors of Lad Lake, Inc. and has been a member of the Society for Information Management (SIM) and the Wisconsin Chapter for over 20 years, serving in many capacities, including the current role of president elect. He completed his term as Vice President for Advocacy and Communities of Interest on the SIM National Executive Board in December.

Aleš Popovič

Aleš Popovič is a Professor of Information Systems at NEOMA Business School, France. He studies IS value in organizations, IS success, behavioral and organizational issues in IS, and IT in inter-organizational relationships. Aleš has published his research in premier IS journals, such as the *Journal of the Association for Information Systems*, the *European Journal of Information Systems*, the *Journal of Strategic Information Systems*, *Information & Management*, and *Decision Support Systems*. He is an Association for Information Systems (AIS) Distinguished Member and served as a Chair for AIS SIG Decision Support & Analytics.
